AND EQUIPMENT**

WHAT IS PLANT AND EQUIPMENT INSURANCE?

This form of insurance provides an indemnity for all plant and/or equipment (including spare parts and tools) of every kind and description owned or used by you or for which you may be responsible from time to time.

This policy needs to be carefully considered, as many contractors' Plant and Equipment policies vary in respect to the sum insured. In some cases insurers will impose a true market value definition as the sum insured. Alternatively other insurers provide a replacement value for a limited period of time (generally the first 12 months).

Typical equipment insured under this policy includes mobile cranes, tower cranes, earthmoving equipment, aerial access equipment, drilling and concreting equipment, etc.
