## WHAT IS WORKERS COMPENSATION?

Workers Compensation insurance covers an employer for their legal liability to employees in accordance with their applicable State or Territory legislation and is compulsory for all employers to arrange.

Each Australian State or Territory has different requirements and we will advise you of the appropriate cover for your specific circumstances.

**Please note:** MBA Insurance Services act as an agent for CGU Insurance Ltd in New South Wales and Victoria, whilst in Western Australia, Tasmania and the Northern Territory we use various private insurers.
